PMG HSS Palakkad

ABOUT ME

I am a committed UI Developer with two years of experience designing and developing responsive, user-friendly web interfaces. Skilled in front-end technologies and content management systems, I transform ideas into functional and visually engaging digital experiences. With a focus on performance, usability, and clean design, I ensure every project delivers a seamless experience across devices.

EXPERIENCE

- *April 2025 - Current*
Web Developer
Cyphershot Digital Solutions

Design and develop responsive websites using HTML, CSS, JavaScript, Bootstrap and WordPress, managing hosting, emails and optimising speed for seamless cross-device performance.
- *July 2024 - Feb 2025*
Junior Web Developer
J4Web

Created mobile-friendly interfaces with HTML, CSS, Bootstrap and JavaScript, translating designs into functional layouts while improving usability, accessibility and overall site performance.
- *Jan 2024 - Mar 2024*
React Js Intern
Futura Labs Technologies LLP Calicut

Assisted in building UI components with React JS, enhancing features, fixing bugs and improving application performance through clean, modular and maintainable code.
